

Teralytic Soil Probe | 90cm

Measures soil moisture, pH, nitrate (N), phosphate (P), potassium (K), temperature at 3 different depths and above-ground temp, humidity, & lumens, every hour.

- Connects to the cloud using cellular service.
- 15000-mAh battery
- Cloud-based calibration with 3-years of access included in price
- Rugged ABS, and aluminum housing. 3-year lifetime

Sensor	Sensing Medium	Measurement Range
Lux	Air	0.045 - 188,000 lux
Temperature & Humidity	Air	0 - 100% RH / 10 to 85 °C
CO ₂	Soil	400 - 50,000ppm (0~5%VOL)
O ₂	Soil	0~25%Vol, O ₂
Soil Temperature	Soil	-55°C ~ 125°C
Moisture	Soil	0% - 50% VWC
pH	Soil	2 - 10 pH
NPK	Soil	<1 - 2500 ppm

Probe Pricing

Taxes, shipping & handling not included.

Pricing includes a 3-year subscription to the Teralytic Dashboard. Subscription required to view probe data.

Probes

Single Probe -----	\$1,750
5 Pack of Probes -----	\$8,500
10 Pack of Probes -----	\$17,000

Add-Ons

Installation Assistance -----	\$1,000+
Auger Kit -----	\$450
